## SKILLS

- JavaScript
- Nodejs
- Typescript
- Testing library
- Reactjs
- Git
- Nextjs
- Jest
- Redux
- Postman
- GraphQL
- Github actions

## EXPERIENCE

### Front-end - EDteam

February 2021 - January 2022

Maintenance and development of the platform built on Nextjs with Javascript and Typescript, alternating between middle time and full time, 100% remote, multicultural team and scrum methology for goals.

Notable challenges:

- Refactor and re implement all the public side of the platform
- Add all business logic for the cart actions (add, remove, show items, calculate prices, create orders, etc..)
- Be in charge of the frontend area in the most important campaign (and others) of the company (black friday), issues, requirements and iterations was my responsibility

## EDUCATION

### Centro de Estudio de Idiomas Culiacán UAS

English language (2016 - 2019)

### Tecnológico Nacional de México campus Culiacán

computer systems engineer (2020 - 2026)
